

"Success is not final; failure is not fatal: it is the courage to continue that counts."

—Winston S Churchill

Dear Authors, Editors, Reviewers, Readers, and Students

I am pleased to announce that the *Dental Journal of Advance Studies (DJAS)* has been officially indexed in the Open Access Journals (DOAJ) Directory.

This is a significant turning point in our quest for academic excellence and broader dissemination of cutting-edge dental research.

Being indexed in DOAJ indicates the quality and integrity of the research published in DJAS. It guarantees that our publications are easily available to a worldwide audience, which increases the exposure and impact of our authors' contributions.

I'd want to convey my deepest appreciation to our committed editors and reviewers, whose tireless efforts helped us gain this recognition. I also wish to thank our readers and students for their constant encouragement and involvement with our publication.

Our team at DJAS welcomes dental researchers, clinicians, and intellectuals to submit their valuable work to ensure a wider reach and citation of your work. Together, let us continue to advance the field of dental sciences and contribute to the global body of knowledge. We look forward to receiving your valuable submissions and furthering our collective mission of promoting excellence in dental research.

I am hopeful that our current attempts at getting DJAS indexed on the highly acclaimed UGC-CARE and Scopus platforms will yield excellent results shortly.

Thank you for your continued support and trust in the *Dental Journal of Advance Studies*.

Dr Tarun Kalra
Editor-in-Chief
